Welcome to the family...

We've been creating bespoke hand-crafted kitchens and furniture for 30 years, and it shows. Every aspect of your ideal kitchen, from realising your vision to the last lick of paint, is rooted in our personal service.

Whether you'd like a classic Victorian or Georgian theme or a stunning contemporary design, our family brings your vision to life and adds real value to your home.

Jo, Chris and Mike

Create the perfect atmosphere.

From concept to completion our hand-crafted, custom made kitchens reflect your individual requirements.

Whatever style you need, we can create a kitchen to suit you, from a warming family hub of the home to a cool contemporary retreat.

Timeless craftsmanship and an enduring finish.

Rich in colour and texture, our kitchens are lovingly hand-made using nothing but the finest materials and years of expertise. Our team works tirelessly to make sure every aspect and detail of your kitchen is a perfect fit for you, from the choice of mouldings to selecting the ideal complement of work surfaces and finishes.

Oozing charm, with clever space-saving solutions.

All our units are hand-painted to ensure a quality finish and virtually any appliance, from a washing machine to a fridge freezer, can be cleverly concealed to create a sleek, minimalist look that will not only create the illusion of space but offer real space-saving solutions. Each kitchen is designed around you, for you. Whether you want understated appeal or lavish, vibrant glamour, we help you create your very own hub of the home.

Sleek and stylish - a subtle taste of city living.

Choosing a classic design doesn't have to date a room. We use a huge variety of only the highest quality materials and appliances to make your vision a reality - from the iconic, weathered wood look to a clean, contemporary take on the nation's definitive favourite, complete with simple lines and a soft, inviting finish.

We can create a warm, welcoming place that maximises light and space. Whether you want a fresh perspective on a truly classic kitchen or your own slice of period charm, we work with you every step of the way.

What makes us special?

Our attention to the smallest details sets us apart. All our kitchens are designed around you to fit your exact needs and requirements. With a personal, hands-on service and hand-crafted furniture made from a range of premium materials including tulip hard wood, veneered MDF and Quebec yellow timber, we promise you a kitchen that will enhance your home and enchant your guests. For the even more discerning client, solid wood throughout is also available.

Made from scratch, just for you.

We don't simply sell – we create. We don't offer pre-determined units in a set size, shape or finish. Every single element of a bespoke Hill Farm kitchen is just that – tailored to you and your exact requirements. We work with you every step of the way, guided by your vision and our expertise.

Premium materials crafted with care.

We only create our kitchens and freestanding furniture from the finest and most durable materials. There isn't a single corner we cut; unless you count shaping and sanding our bespoke cabinets, using time-honoured craftsmanship.
