

PERFECTLY PRACTICAL

“From the moment we first met Hill Farm they were helpful, patient and caring, offering suggestions and ideas without ever trampling over our ideas and needs.”

The owners of this period property just couldn't find a way to put their own personal stamp on their new kitchen without choosing between design and functionality. Luckily, Hill Farm was able to offer a perfectly practical solution that doesn't compromise on style or space.

To create a seamless uniformity, all the units were made from Quebec Yellow Timber, hand-painted in Farrow & Ball 'Dove Tale'. White Bronze knobs and cup handles give that extra polished look. All the worktops are made from solid English Oak, to add warmth and contrast against the cool, muted finish of the cabinets.

Side-by-side under-counter fridges maximise work space and generous bi-fold larders with adjustable shelves were designed to resemble a traditional Victorian bookcase. And there you have it – with a few simple ingredients, we cooked up an effortlessly elegant kitchen that oozes both style and practicality.

“...Hill Farm transformed our kitchen into exactly what we wanted.”

“Without a doubt we would tell anyone thinking of having a new kitchen to go and see Hill Farm – they will not be disappointed!”
